

**Bank of Zambia**

## **NOTICE TO ALL MEMBERS OF THE PUBLIC ON THE UPGRADED BANK NOTES IN THE K10, K20, K50 AND K100 DENOMINATIONS**

The Bank of Zambia wishes to inform members of the public that the upgraded banknotes with new security features have been issued into circulation. The new security features have been incorporated on the banknotes in order to safeguard against counterfeiting. In view of this, all cash handling equipment in the market will be configured to recognize the upgraded banknotes. The cash handling equipment includes Automated Teller Machines (ATMs) and other cash counting machines.

All commercial banks have commenced configuring their cash processing equipment, although the configuration of **deposit-taking ATMs** may not be completed in time.

The Bank of Zambia would, in this regard, like to appeal to all members of the public to deposit the upgraded banknotes over the counter in respective branches during this period until commercial banks complete the configuration of deposit-taking ATMs. Members of the public will be duly notified once the said exercise has been successfully completed.

The Bank regrets any inconvenience this may cause.

For further information or clarification, please do not hesitate to contact your respective commercial bank or the undersigned.

A handwritten signature in blue ink, appearing to be 'Muny', is written over a horizontal line.
